Unity is a global law enforcement team of super-powered operatives, dedicated to protecting humanity from top-secret threats. There's never been a team quite like this one...but they're not without precedent.

Throughout history, people with exceptional abilities have always sought each other out and banded together to face the world's greatest threats. One of these menaces is the War Monger—a seemingly immortal agent of chaos who delights in picking fights and bragging about her exploits throughout history. She claims to have fought super-teams from the Middle Ages to the Victorian era to WWI, where she met Unit-Y—the team of heroes deployed under the leadership of the Eternal Warrior.

But the War-Monger has returned today, violently assaulting the Iranian ambassador to the U.K. in hopes of triggering another war...and before Unity could gather to defeat her en masse, she's been taking out key members—Ninjak, Livewire, and GIN-GR—in brutal one-on-one attacks in their own homes...
