# CHAPTER TWO

Two weeks later.

I know it's silly, but... I don't know. Shannon's never just taken off like this. Not without saying something first. She's done girl's weekends and stuff like that. But she just... wasn't there.

No worries, Doug. Shannon's beautiful. But I you won't find a happier couple than me and Clive.

Anyway. Her phone just ran out of battery. I'm sure she'll be home any minute.

Did you check with Amie and Darren? She's probably out with Amie.

I guess I'm just getting paranoid. I'm not sure. I think Darren's got something weird going on.

You said it, Doug. You're paranoid.

MATRYOSHKAS FIELD GUIDE. 13.9. Once full memory restoration is established, agents must begin Nest 2 procedures.

MATRYOSHKAS FIELD GUIDE- 13.10: Next 2 protocols must be aggressively implemented, while still remaining predictable in every other respect.

MATRYOSHKAS FIELD GUIDE: 13.12: Direct action in Nest 2 should not be taken. Rely on preliminary groundwork to set the stage for Nest 3.

MATRYOSHKAS FIELD GUIDE. 13.13. Once unwilling satellite agents have been set into motion, it is even more important to maintain a low profile.

There are only three prints in existence. We're watching one of them.

I know you took it, Shannon. As soon as I get it back, I'll let you go. You know, Amie thinks we have a thing going?

That's okay. I thought she was the one who stole the Falcon...

So I guess it's only fair.

I...

>sniff<

I don't know where it is, Darren.

C'mon. Just give it up and you can get out of here.

If Amie finds you here she'll really think something's going on.

Doug... Doug's going to kill you when he finds out what you...

MATRYOSHKAS FIELD GUIDE: 13.14: Unwilling and unwitting satellite agents should be thought of as an insurance policy. The more unconscious agents, the more insurance you will have.
