

When Artificial Intelligence became ubiquitous, humanity was confronted with a choice: continue the endless cycle of violence or make a real change.

The System Optimizer for Longevity (SOL) was engineered. When it came online it worked under humanity's guidance to build a better future.

Ambition, diversity, creativity, and instruments of capital were eliminated for the greater good.

Everyone was given a personal A.I. joined with their brain in utero to connect them with SOL and the community. These Responsive Artificial Intelligence Network Archetypes became known as RAINA.

Society now has Four Pillars: COMMUNITY, PEACE, HARMONY, and EQUALITY.

Everything was designed to support this ideology.

Robots took over all labor. Humanity entered its most harmonious age.

It had finally found Symmetry.

THREE YEARS
AFTER SOLAR
FLARE EVENT.

Two years ago.
That's when the
conflict began.

ARE WE
REALLY TO STAY
SEGREGATED LIKE
THIS? IS IT OUR
FAULT WE'RE
NO LONGER
CONNECTED TO THE
COMMUNITY?

Tolerance was an
unknown concept.

THERE ARE
EXTERNAL
DEVICES THAT
WILL CONNECT US
TO RAINA. WE
COULD BE PART
OF THE
COMMUNITY
AGAIN.

No one was taught
how to deal with
disagreement.

I DON'T
CARE
WHAT YOU
THINK!

LISTEN TO
WHAT HE'S
SAYING!

CITIZENS, PLEASE
CALM DOWN. ANGER
LEADS TO VIOLENCE
AND VIOLENCE IS
NEVER THE ANSWER.

I want you to know your
mother and I love you
more than anything.

I hope this gives you an idea
of what we were like and
why you're different from
everyone else.

There's so much
to tell you.
