

AFTER A TUMULTUOUS ADVENTURE, IN WHICH THEY SAW THE RESURRECTION OF THEIR DEAREST OLD FRIEND SUB GIRL, TANK GIRL AND GANG FOUND THAT THEY HAD ACCIDENTALLY LIBERATED SEVERAL BILLION DOLLARS WORTH OF GOLD BULLION...

THIS IS GREAT FUN - SPENDING RIDICULOUS AMOUNTS OF CASH ON OUTLANDISH WHIMISIES AND HAVING NOTHING TO SHOW FOR IT - BUT I CAN'T HELP FEELING THAT WE COULD BE GETTING MORE DELIGHT FOR OUR DOLLAR.

MADAM JET GIRL IS CORRECT. THIS HAS TURNED INTO A RATHER SOULLESS EXISTENCE SINCE MY SMOLLEN HELMET HAS ABATED. WE'VE SPENT AND SPENT AND SPENT, AND WE'VE BARELY SCRATCHED THE SURFACE OF ALL THAT GOLD. WE NEED A PLAN.

WE SHOULD DO SOMETHING MASSIVE, SOMETHING EXPLOSIVE, SOMETHING WORLD-SHATTERING, SOMETHING THAT WILL LIVE FOREVER...

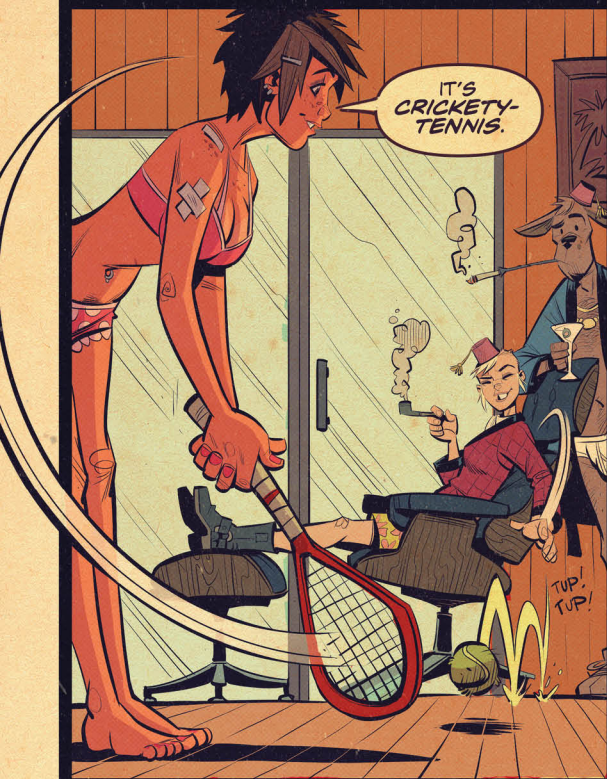

SOMETHING ENORMOUSLY, EPICALLY, STAGGERINGLY, BEWILDERINGLY STUPID.

ANY IDEAS, TANK GIRL?

WELL... THERE IS ONE THING THAT I'VE WANTED TO DO FOR SOME TIME...

\*NOTE - SEE "TANK GIRL GOLD" ISSUE #1 - "FURRY ROAD"

Most sports evolve through decades of trial and error, slowly honing the rules, regulations, and hardware, while audiences patiently wait for the best athletes with the right skill-sets to emerge as champions of the game. Tank Girl claims that she has been dreaming up the rules for her sport since she was twelve, but, to any casual onlooker, it would appear that she'd thought it all up in five minutes whilst sat on a lavatory in a drunken stupor. Please come along and join us for the inaugural ceremony and opening match, as...

# TANK GIRL introduces AUSTRALIAN RULES CRENNNIS

ARTIST : BREAD PARSLEY

WRITER : ALFRED MARTINI

A Crennis Brigade (team) consists of either seventeen or eighteen players: four Square Pegs, two Bikers, one Third Eye, two Overlords, four Big Babies, two Toadstools, one Belcher,

one Charlady, and an optional Crooner. There is no referee or umpire in Crennis, and all disputes are resolved by arguing and fighting.

The Gonad is a small ball, usually about five inches in diameter, made from the untreated lining of a beaver's stomach, which has been ceremonially pumped full of fresh custard until it is firm and tight - this happens before each game and is the responsibility of the visiting team.

The double-ended Tallywacker serves as a dual-action catching-and-hitting device. This is the most important component of the player's kit - only one Tallywacker may be used for the entire duration of a Crennis Player's career, so they are guarded with a jealous fervor. Suitable for catching high-speed Gonads, and for removing smiles, teeth, wind, and kneecaps.
