The battle of Rook, Michigan has ended. On government orders, the military contractors H.A.R.D. Corps annihilated the child soldiers known as Generation Zero. The Zero's final, free member – Animalia – has taken refuge with fellow psiots The Renegades. But the massacre of Generation Zero has made one thing undeniably clear: psiots are not safe. With Generation Zero gone, H.A.R.D. Corps' new target is seemingly Alexander Solomon. But The Renegades know it's only a matter of time before they are in the crosshairs. As they stow away at one of Toyo Harada's old safe houses, they prepare...

PETER STANCHEK

Peter is a damaged young psiot with a history of substance abuse and mental illness. Peter exhibits multiple powers – including telekinesis and mind-control – but Peter's greatest power is his ability to activate psiots with a 100% success rate.

KRIS HATHAWAY

The leader of The Renegades. While not a psiot herself, Kris is a brilliant tactician with the heart of a revolutionary.

FAITH HERBERT

Faith is the shining light of the team. She is a woman with the power of flight and embraces the role of superhero with an unwavering optimism and a lifetime of fandom to guide her.

TAMARA

Kris' partner. Fiercely protective and whip-smart, she provides a moral compass not only for Kris, but also for the rest of the team when they seem lost.

JAY TUCKER

The newest member of The Renegades. He first met the team while on the run from The Consortium, and had his latent powers unlocked by Peter.

JOHN "TORQUE" TORKLESON

Torque likes to be the toughest guy in the room, but at his core is a broken little boy inside an indestructible body.

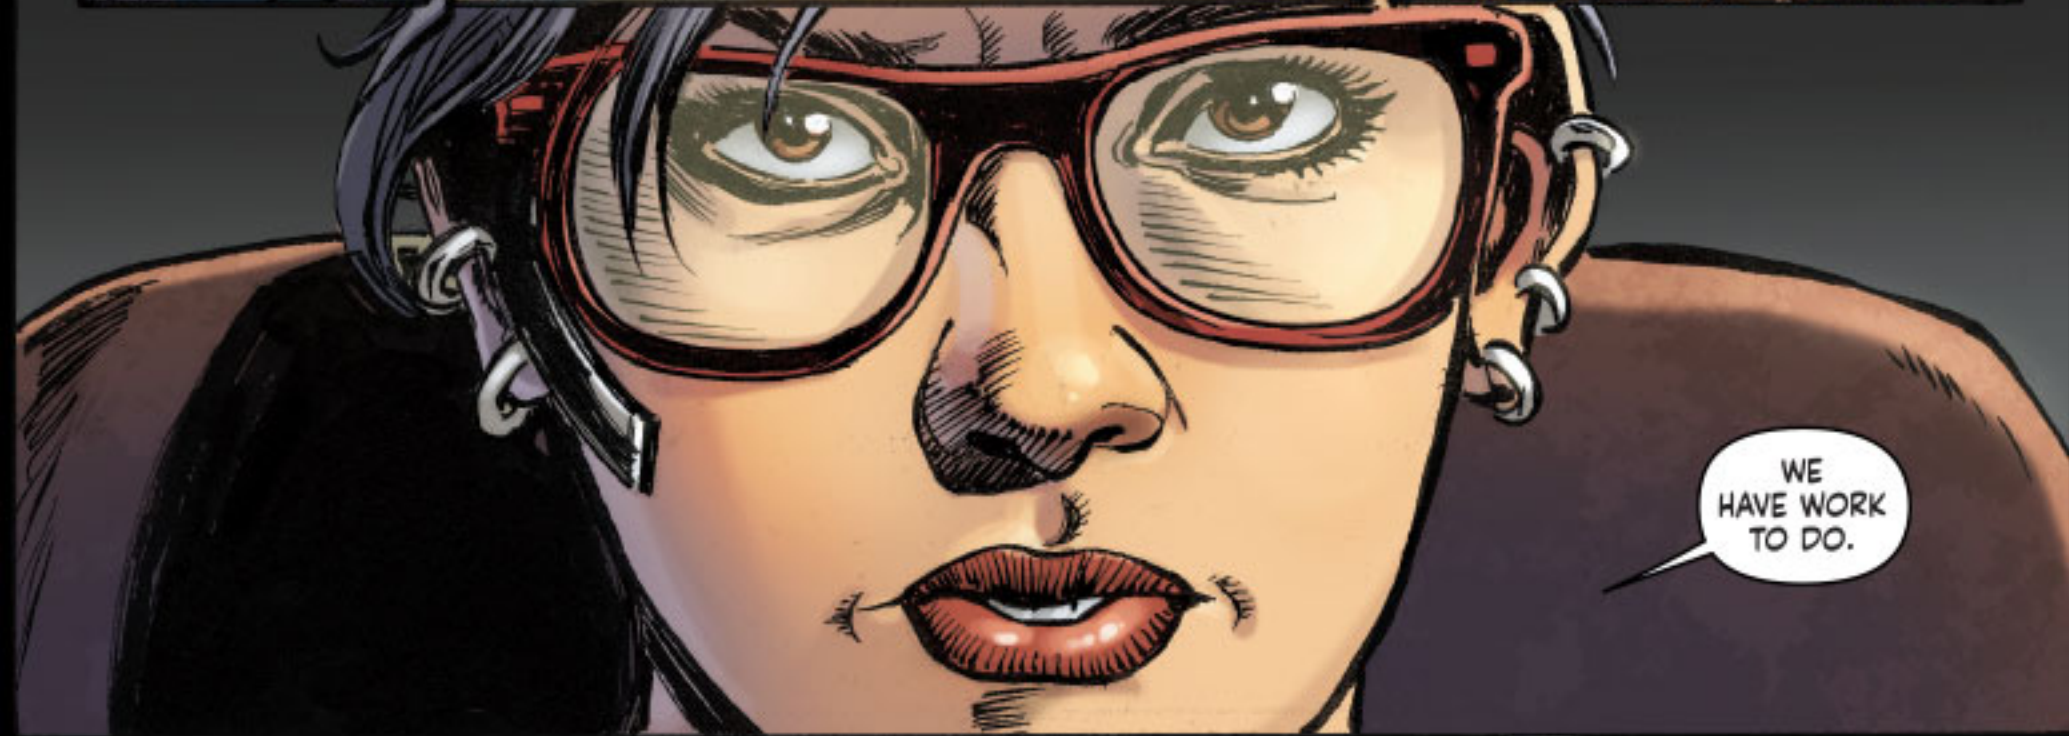

@X

@X is the hacker that broke into the Harbinger Foundation's servers. He believes in the Renegades' cause, and provides technical support.

ANIMALIA

One of the last surviving members of Generation Zero. Animalia is a vicious soldier out for blood and retribution, armed with the power to create hard light constructs around herself in the form of several animals.
