# THE Fantastic Four

A brilliant scientist--his best friend--the woman he loves--and her fiery-tempered kid brother! Together, they braved the unknown terrors of outer space and were changed by cosmic rays into something more than merely human! And now that the FANTASTIC FOUR are reunited, the world will never be the same again!

The Fantastic Four recently built the *Marvel-2*, modeled after the ship used on the fateful mission that exposed them to life-changing cosmic rays years ago! They traveled to Spyre, their original destination, but were met with hostility by Spyre's super-powered defense team, the Unparalleled, and their leader, the Overseer! Meanwhile, Johnny has been grappling with the confusing revelation that, by the rules of Spyre, a member of the Unparalleled named Sky is his destined soul mate. Elsewhere, the Thing befriended the Spyre citizens of Lowtown, who'd been banished by the Overseer after their cosmic exposure turned them into monsters.

But when Reed revealed that the Overseer had orchestrated the cosmic rays that transformed the Fantastic Four years ago, Ben became enraged! Sue was able to stop Ben from killing the Overseer but at the expense of the miles-high Tower of Over-Site, which collapsed with Overseer crushed beneath the rubble!

It seems the Fantastic Four just became the enemies that the Overseer painted them to be...
