Uh, Jo?
Something WEIRD
is going on...

Things are
FREEZING! Like,
in TIME!

It only lasts
a few seconds
but...

This CAN'T be just
a coincidence, right?

I'm not sure...according
to the new data taken since
yesterday, time seems to be
moving a little bit slower...
that could be normal
though! We don't know!

Things have never
FROZEN IN TIME before,
though!

And it's practically
the same day you started
your experiment!

Could MYSTY have
caused this somehow?

I don't
THINK so
but...

I...I don't KNOW,
I can't be sure...
