DEATH'S HEAD

After a massive power failure, Death's Head found himself at a concert on Earth. When he attacked the crowd, former Young Avengers Wiccan and Hulkling stepped in and stopped him. They took him back to their apartment...

...where Wiccan had secretly been keeping an "upgraded" version of Death's Head stolen from a former A.I.M. lab upstate. Thanks to some secret magical Googling, Wiccan believes that the two mechanoids are tied very closely to the future of the Avengers.

After some convincing (A.K.A. fighting), Wiccan agreed to return the "young" Death's Head—nicknamed "Vee"—to his creator, Dr. Evelyn Necker. Concerned about other versions of himself running around, Death's Head went with them. They found the lab full of robotic castaways—and the Earth Prime version of Dr. Necker.
