Riri Williams was a young girl who dreamed of becoming an astronaut—until her best friend and stepfather were killed in a drive-by shooting. RIRI WILLIAMS

IRONHEART

A string of crimes tied to the terrorist organization known as the Ten Rings led Riri to move back to her hometown of Chicago. Her investigation brought her face-to-face with a member of the Ten Rings—Midnight's Fire, who tried and failed to recruit Riri into his organization.

Recently, Riri encountered a mysterious and magical villain named Eclipse, who also bore the Ten Rings insignia. Riri turned to Doctor Strange, hoping the Sorcerer Supreme might have answers about the magic she'd faced. But when Riri revealed that the Ten Rings were trying to access a portal to the mystical Wellspring of Power, Doctor Strange pointed Riri to the likely location of a previously undiscovered portal—Wakanda!
