

# DEATHLOK

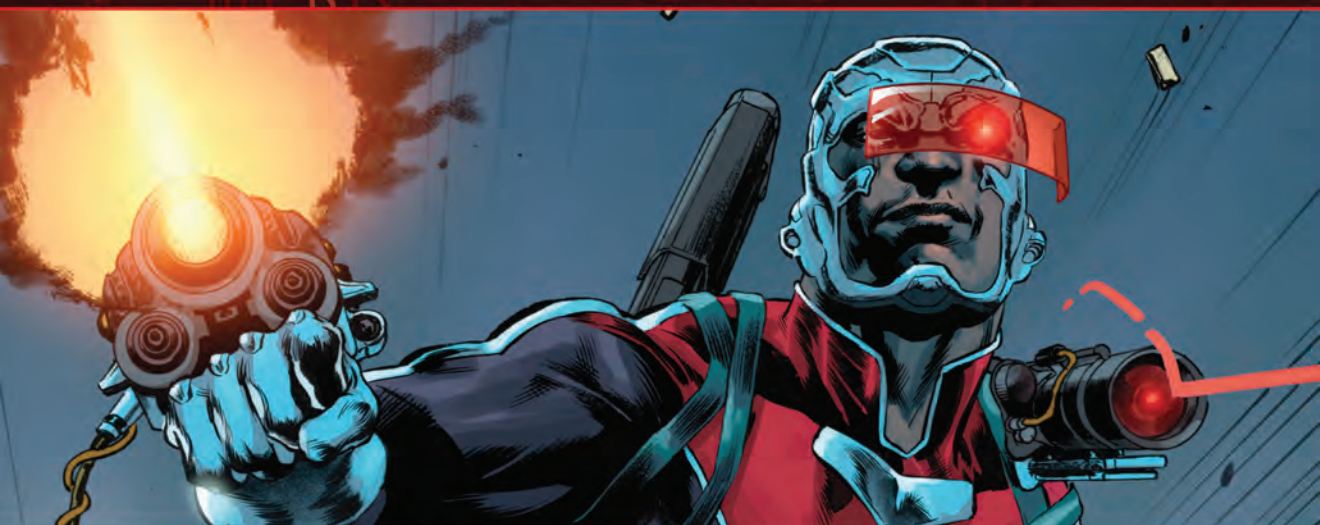

>>> **BEFORE:** Henry Hayes was a combat medic, injured in battle.

But he was given a new lease on life through prosthetics made by BIOTEK...

>>> **NOW:** Henry works for MEDICS WITHOUT BORDERS, going into war zones to help provide aid and relief. Or so he thought...

Without his knowledge, Henry was turned into DEATHLOK, a cyborg asset for the mysterious organization Biotek's deadly covert operations. Implanted false memories allowed Hayes to believe he was helping people, but since being shot by the A.I.M.-hired mercenary Domino, Henry has been freed from Biotek's mind control. Unfortunately, Hayes isn't fully free of Biotek, as JJ, his handler and only advocate at the organization, has been caught trying to help him. JJ's superior informed Henry that his non-compliance could have consequences for his daughter, Aria.

Meanwhile, S.H.I.E.L.D. agent Andrea Hope has confronted the former Deathlok Michael Collins in hopes of learning more about Biotek's operations. But Collins isn't the only other cyborg around. Biotek has sent its modified soldier Seraph to take Henry down.
