DEADPOOL VERSUS THE PUNISHER

The man who manages **DEADPOOL's** money is known as **THE BANK**, an accountant and family man whom Wade has known for years. **THE PUNISHER** is on the trail of the Bank, who coincidentally happens to be a money launderer and financial consultant to organized crime the world over.

When **DEADPOOL** and **THE PUNISHER** crossed paths at the Bank's home, Mariana, the Bank's wife, took the opportunity to fake her and her son's death, hoping to escape her husband's dangerous behavior. The Bank was more concerned with the disappearance of his financial records, as his villainous clientele threatened to pull their money from his accounts—but when his math-whiz son Hudson, who had all of the financials memorized, was discovered alive, the Bank enlisted the Taskmaster to recapture Hudson and kill Mariana. Wade found out that Frank had been lying to him, preventing him from helping his old friends, and Deadpool and the Punisher ended up in another shootout...
