Bob Reynolds is

THE SENTRY

one of the most powerful super heroes the world has ever seen.

But with great power comes great darkness.

When Bob becomes the Sentry, he risks unleashing the Void, an unstoppable destructive force born of Bob's subconscious.

With the help of Doctor Strange and Iron Man, Bob has found balance. Using a device called the Confluctor, Bob can enter an imaginary dreamscape where the Sentry and the Void can roam free, while Bob lives a mostly normal life in the real world.

But the arrangement is probationary, and if Bob misses a trip into Sentry World, his supervisors in the Aberrant Crime Division will have no choice but to bring him in permanently.

And someone just stole the Confluctor.
