Nepal, thirteen years ago:

**Master Jang!** You must come quickly!

The Abbot and the other masters, they gave instructions not to be disturbed, but they have been in the sanctum for many days.

The doors are barred on the other side. No-one has entered or left, but now we hear strange sounds from within!

Stand back. I will deal with this.

China,  
now:

*In the Third Age, when the bridges  
between Heaven and Earth could yet  
be crossed, a gathering of mighty  
heroes, after a war that lasted a  
century and a day, did defeat a  
great evil...*

*Imprisoning it within a hidden tomb that  
no living being could enter, and guarded  
by an army of ageless creatures, leaving  
humanity forever free of its predations.*

# TEAM CHARNACKI

*Or, at least, that  
was the plan.*

Bloody  
hell! How many  
**more** of these  
things are  
there?!

Wait...

It seems we've just  
been given a break for  
once. Feels weird,  
doesn't it?

You're telling  
me...

I haven't felt this lucky  
since my STD test and  
last paternity suit DNA  
sample both came back  
as negative on the  
same day.
