# VENOM<sup>INC.</sup> part six

Former Venom host **LEE PRICE** wanted to regain his former power, so he stole a symbiote from **ANDI BENTON**, A.K.A. Mania, and became **MANIAC**. Lee somehow unlocked a new power to spit symbiote globules onto other people and control their minds. He used this ability to take over **BLACK CAT'S** gang, the many members of the criminal Five Families and even **SPIDER-MAN**.

Meanwhile, **FLASH THOMPSON** became the all-new **ANTI-VENOM**, which granted him amazing new abilities and made him toxic to symbiotes. Flash, together with **EDDIE BROCK**, A.K.A. **VENOM**, Black Cat and Andi, armed themselves with weapons loaded with the same substance that created Anti-Venom and freed Spider-Man from Maniac's control.

Afterwards, Spidey and co. launched an all-out assault on Maniac and his army of "Made Men," and in the process liberated Price's new soldiers. But Maniac still has one more monstrous play to make as the symbiote goo flows off his minions...
