TREADWATER

Genius billionaire Allen Downs sends his privately funded vigilante team (Treadwater) into Antwerp, Belgium in an attempt to recover a shipment of chemical compounds that, in the wrong hands, could be used to build a devastating biological weapon. Interrupted mid-mission, Treadwater fails, and the infamous terrorist group known as the Children of Chaos make off with the shipment instead.

Meanwhile, CIA Director Mel Coovert has a problem. She reaches out to Allen, an old friend, and makes a deal. Mel will provide him with intel on the Children of Chaos, and Treadwater will aid in the retrieval of a stolen nuclear warhead from fascist German General, Heinz Kirklau.

After successfully extracting the stolen warhead, the team discovers they have taken on a stowaway, General Kirklau's second-in-command...and brother-in-law...Wolfgang Kulikov.

Wolfgang has a proposition of his own. He will provide Treadwater with the location of Kirklau's second warhead in exchange for the successful retrieval of his nephew from Kirklau's compound in Germany.

Treadwater reluctantly agrees to Wolfgang's offer, and they head back into Germany to abduct Kostya, the capricious son of General Kirklau...
