

KAREN, LOOK. HER RADIATION LEVELS WERE VERY LOW. EVEN BEFORE WE PUT HER IN QUARANTINE.

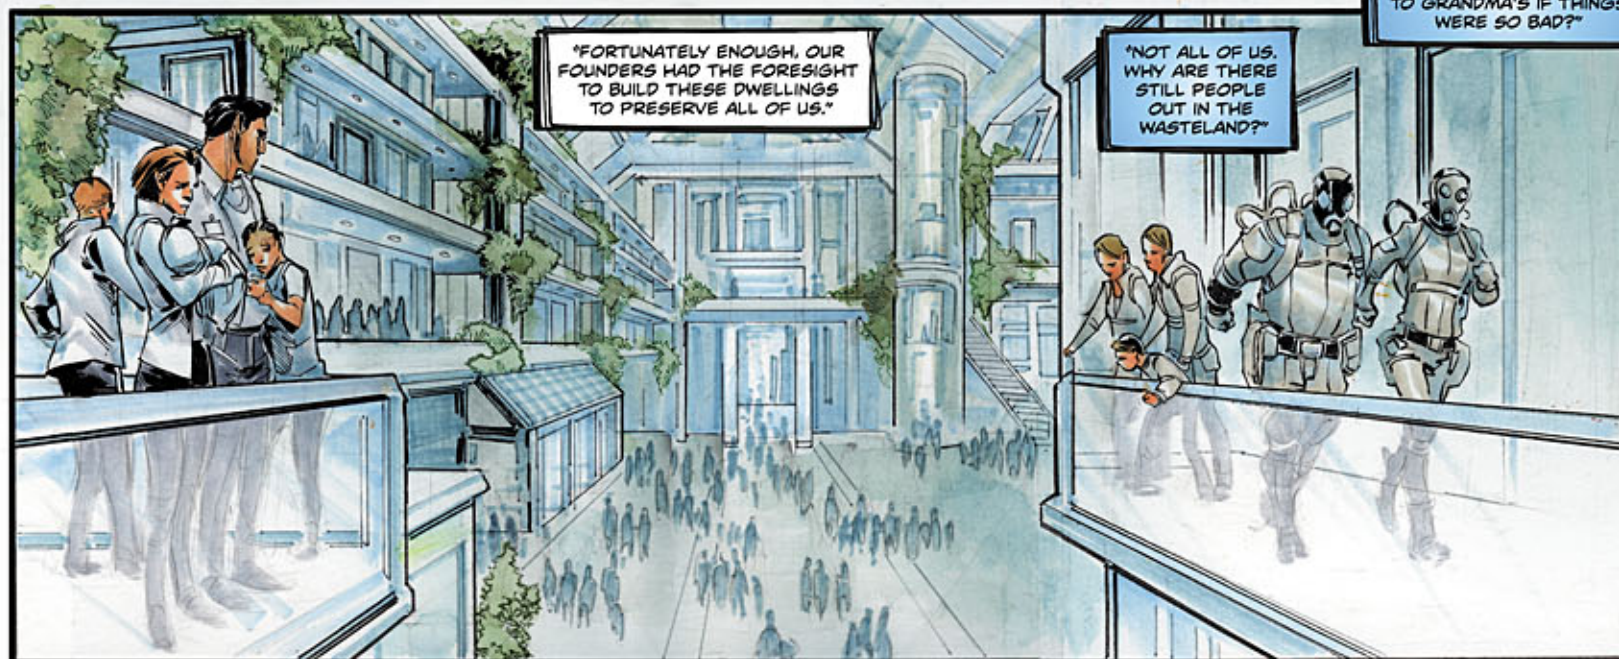

DO YOU THINK SHE'S NATURALLY MORE RESISTANT, OR HAS THE AIR OUTSIDE GOTTEN MORE BREATHABLE?

THE RESULTS OF THE LAST SOIL AND AIR SAMPLES WEREN'T CONCLUSIVE FROM THE LAST TRIP.

I'M GOING TO REQUEST ONGOING PHYSICALS WITH THIS--

--LOLA. GET DRESSED. YOU'RE COMING WITH ME.

WELL, I'M
TAKING YOU
TO SEE--

--WOW.
WHAT ARE
THOSE
THINGS?

ECO DOMES.
THEY CREATE
BREATHABLE
AIR FOR US.

I'M NOT
QUITE SURE
HOW LONG THEY
CAN KEEP US
ALL ALIVE,
THOUGH.
