# GUARDIANS OF THE GALAXY

THE TELLTALE SERIES

## MISSION LOG

CLIENT:

COSMO

The Guardians of the Galaxy are still in a bit of a slump. We almost lost our ship to Howard the Duck's impound after our last job capturing the Blood Brothers went south. But, thanks to my amazing leadership, we landed ourselves a sure gig!

Some scavengers kidnapped the Astronomer's research assistant, Cosmo, and sold him to the gladiator pits of Sakaar. All we needed to do was to free him and hightail it out of there, but my team was caught. After being chased off the planet, Cosmo directed us to Titan, where we would find a better-paying job. However, after arriving on Titan, all we found were some old Russian dog biscuits (thanks, Cosmo) and an ambush by the Blood Brothers!
